

It's time to work with the leader of AI advancements in Regulatory Affairs. Our industry-leading **LifeSphere® Regulatory** platform, powered by NavaX™, offers the latest in AI capabilities, including advanced GenAI and Agentic AI, to help teams drive unprecedented time and cost savings, while maintaining global regulatory compliance and getting new products to market sooner.

Transform Regulatory Affairs with AI Innovation

Intelligence Agents

Enable smarter, more efficient compliance with the latest regulatory requirements via autonomous, Agentic AI-powered workflows and comprehensive decision intelligence.

Regulatory Intelligence

Accelerate regulatory monitoring and compliance by leveraging robust AI capabilities to monitor the latest updates, assess impact, and build a centralized knowledgebase.

Health Authority Interactions

Streamline Health Authority (HA) interactions with automated intake and management of HA communications, while building a knowledgebase for greater transparency and consistency.

See the value of LifeSphere Regulatory.

Powered by **NavaX™**

Leading AI Innovation

Work with the leader in Regulatory Affairs innovation, including advanced GenAI and Agentic AI capabilities powered by NavaX.

Autonomous Intelligence

Ensure simple, efficient, and consistent compliance by leveraging autonomous agentic workflows and intelligent decision support.

Accelerated Compliance

Enable faster, more consistent compliance by automating key workflows across regulatory monitoring and Health Authority (HA) interactions.

See Value Sooner

Harness the latest advancements in AI available today and in the immanent future – not as distant items on a product roadmap.

Industry-Approved

ArisGlobal supports 60+ organizations with Regulatory submissions and was recognized as a leading innovator in a recent Gens & Associates survey.

Modularity & Interoperability

See the value of AI without extensive overhead via interoperable, modular solutions that can be seamlessly deployed on top of your existing RIM.
