

A Unified Hub for Safety Reporting, Analytics, and Visualization

Business Intelligence provides pharmacovigilance (PV) teams with a single, unified hub for all their reporting, analytics, and visualization needs.

Trusted by over 100 pharmaceutical companies across the globe, Business Intelligence breaks down data silos, accelerates time-to-insight, and enhances regulatory, compliance, and operational reporting.

Seamlessly obtain the insights needed to drive enhanced transparency, operational efficiencies, and strategic decision-making.

Intelligent Analytics Powered by Spotfire

Empower faster strategic decision-making with intelligent, dynamic visualizations and out-of-the-box dashboards, powered by Spotfire.

Seamless Transactional Data Flow

Bring PV data from diverse sources together with near real-time data synchronization, without needing to rely on 3rd-party BI or analytics tools.

Rapid Ad Hoc Analysis

Enable faster self-service reporting by giving your teams easy-to-use and highly customizable reporting and dashboarding tools.

Best-in-Class User Interface

Take advantage of a seamless user interface that makes using key functionality intuitive and tailored to specific needs and roles.

Unmatched Report Library

Minimize custom development with a robust library of 50+ out-of-the-box, industry-standard reports for regulatory, compliance, and operational use.

Automated Workflows

Streamline workflows with built-in automation for report scheduling and distribution, notifications, and calendar and task management.

Deliver real value with Business Intelligence.

Powered by **NavaX™**

A Unified Hub for PV Intelligence

Establish a unified hub where PV teams can seamlessly access complete safety data in near-real-time for reporting, analytics, and visualizations.

Accelerated Time-to-Insight

Make it simple for your teams to self-service the insights they need without having to rely on complex tools or technical dependencies.

More Efficient Compliance

Gain greater visibility into case management to proactively circumvent potential bottlenecks and risks that arise.

Enhanced Decision Support

Empower strategic decision-making with insights from powerful analytics tools, including intelligent visualizations powered by Spotfire.
