

## A Modern, Innovative Safety System

MultiVigilance powered by NavaX™ is the industry's first and leading end-to-end automated touchless case processing system, built to help safety teams worldwide achieve scalable, efficient, and harmonized case management while improving patient safety and compliance.

## Harness the Power of AI-Driven MultiVigilance.

### Best-in-Class Automation

Leverage the only safety system with end-to-end automation in production, for significant and measurable efficiency right away, from intake to submission.

### One Global Database

Establish a single global safety database founded on open architecture that enables you to seamlessly access safety data and bring together global teams and systems.

### AI-Powered Translation

Leverage intelligent, seamlessly integrated AI translation capabilities for fast, precise, and compliant multilingual case processing, scalable to global pharmacovigilance operations.

### Comprehensive Compliance

Access the most robust compliance support available, with ongoing cloud updates to ensure you are always compliance with the latest regulations.

### Format-Agnostic Intake

Ensure seamless ingestion of Safety data across multiple formats, including structured, semi-structured, and unstructured formats, to ensure all critical Safety information is captured at the point of intake.

### Trusted Expertise

Utilize the industry's preferred safety system, founded on over 30 years of safety expertise, and actively in use across hundreds of organizations globally.

# Deliver real value with MultiVigilance.

Powered by **NavaX™**

## Significant Efficiency Gains

Accelerate case processing and reduce manual intervention via touchless case processing enabled by industry-leading automation in production today.

## Harmonized Global Operations

Establish a single global safety database with unified end-to-end workflows, secure cloud-based architecture, and open integrations.

## Comprehensive Compliance

Ensure consistent, top-quality compliance with the most robust, up-to-date support for global and regional regulations available.

## Cost-Efficient Scalability

Make it simple to meet rising case volumes and grow as your business does with a cloud based, multitenant platform powered by best in-class automation.
